MEMORANDUM FOR: Director of Security

THROUGH: Deputy Director (Intelligence)  
Deputy Director (Support)

SUBJECT: Commendation for [REDACTED]

1. Since February of 1956 [REDACTED] has served as the Chief of the Security Staff for the Photographic Intelligence Center and its predecessor organization within the Deputy Director (Intelligence) area. In addition, he has been the Senior Security Officer for a highly sensitive security system embracing all United States Intelligence Board member organizations as well as the intelligence components of select foreign governments. In the discharge of the very considerable and frequently complex security responsibilities of his assignments, he has demonstrated outstanding competence, integrity, and determination.

2. [REDACTED] duties have routinely called for him to work closely with senior Agency, military and departmental officials of the United States [REDACTED]. Such relations have been carried out in a highly effective manner, insuring the establishment and control of an exemplary security system of considerable magnitude.

3. In view of the high evaluation which we place upon [REDACTED] services and contributions in his present assignments and the critical importance of maintaining the present high level of effectiveness of the security programs for which he is responsible, it is requested that his present tour of duty be extended indefinitely.

4. A copy of this memorandum is being forwarded to the Director of Personnel for inclusion in [REDACTED] official personnel file. It is hoped that the Director of Security will duly consider this commendation and request for continuation of [REDACTED] present assignment in a manner consistent with his career development and advancement as a thoroughly excellent senior security officer.

ARTHUR C. LORDAHL  
Director  
Photographic Intelligence Center
